

Java Project Report 3

Here are the personal reports :

Aida :

I added a cache for loading URLs and files (using Serializable) it is V1.5 of LinguaKWIC.java

Lea :

making changes in the size of the window

KaiYi:

KaiYi fixed some handler errors and added some more handlers; now some of the buttons actually work.

Daniyal:

Daniyal wrote V1 of XMLWriter class: June 21st - created the first version of an XMLWriter that paired with GUI handler will allow users to save their progress as an XML file
